QUALITY MATTERS

SPJ performing for a long with its never-ending saga of Innovation and Quality.

SPJ brings you Home and Kitchen appliances and Entertainment Units with all comfort and quality that furthermore modernize your living. Thus, always leaving no stone unturned we try to bring the best comfort to your home.

We understand - Home is where we exist.

A healthy home is healthy us - SPJ taking this into mind, we always become better than what we were last. Built to perfection and designed to ensure efficiency, SPJ Electronics provides uncompromising safety in the electronics design. Keeping our customers at the heart and soul of our business, we will continue to constantly innovate to bring value-added benefits to our customers at every step. Always bringing the best BtoB solutions and Home Solutions to our Clients.

We work in cooperation with our customers and technology partners to acquire a deep understanding of critical product characteristics and use conditions. This background allows us to construct an in-depth prevention plan, which includes a similarity analysis and a full review of the products.

Design controls, tests, and approvals are completed at each stage of product development to ensure the robustness and reliability of the product. Products are qualified after validation of final production and product configuration. The industrialization phase is dedicated to optimizing yield, test time, and efficiency with improvements made during volume production.

TECHNOLOGY + INNOVATION = TECHNOVATION

This is how we maintain our Quality and Keep Innovating.
